

Zilenzio

Catalogue 2019/20

Zilenzio develops and delivers high-quality sound absorption using well-considered and designed solutions. Our products are the result of our long experience in sound design, analysis of offices, and tests carried out according to international standards.

We have created healthy acoustic surroundings in many workplaces, and our employees have high expertise in sound absorption and the acoustic properties of different materials.

We are experts in improving the sound environment.

Focus Pod

Easy Chair

Focus Pod is an easily placed and functional screen with included seat and table. A designed and comfortable seat that provides a calm and snug feeling.

FOCUS POD
 Width: 1000
 Height: 1500
 Depth: 520
 Seating height: 450
 Seating depth: 500
 Table diameter: Ø 250
 Height above floor: 650

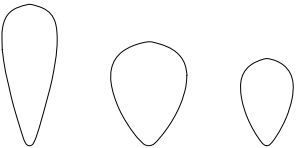

Delta

Ceiling Absorbent

Delta is a sound-absorbing system floating in the air, like a soft and generous flight of kites. Soft petals or pebbles polished by the waves, Delta protects the user from noise while delimiting a space of quietude. It comes in various shapes and finishing, which allow it to be used in very different places, from restaurants to hotel lobbies and libraries. Delta is available in three sizes and a variety of fabrics. See full specifications for Delta on p. 62.

DELTA
540 x 1330
730 x 990
520 x 830
Thickness: 60

Delta Lamp

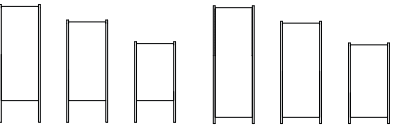

Pendant Fixtures

Delta Lamp is a suspended lamp in our Delta series where the soft design language is easily recognized. The glass shade of hand made opal glass and its thickness and quality creates an even and pleasing light scattering. Combine with Delta Ceiling absorber to create a beautiful installation, or use it on its own.

DELTA LAMP
Base: 222
Length: 380
Depth: 112
Textile cord: 3 m

As its name suggests, Kyoto's inspiration comes from the land of quiet contemplation, particularly the beauty of its tearooms. In these special places, the construction of the architecture and clarity of line and form are gently harmonious. Nothing is superfluous, everything serves a clear function without getting in the way of personal interaction. Kyoto is available in three frame sizes, with two floor drop heights and one width. Frames are in ash.

KYOTO
Width: 600
Heights: 1300 / 1650 / 1900
Floor drop: 300 / 100

Sound absorption is a key concept in spatial acoustics. The aim is to reduce the energy content of a sound wave, which happens by converting sound energy into heat in a material. We'd describe this process as sound being absorbed into the material.

Indoors and at workplaces, where there are many people actively using a space, there are many options to improve acoustic quality by sound absorption. You'll often see false ceilings, screens, furniture, curtains and carpets put to use by an interior architect.

Absorbers like these are used to prevent sound from spreading through a room. In this way, the reverberation in a room is lessened, which in most cases contributes to a better workplace environment.

Dezibel

Table Screen

Dezibel has been developed to provide the best possible design with optimal dimensions for noise reduction between workplaces. A chipboard frame with rock wool filling, covered with fabric featuring a concealed seam on the inner edge. Attaches to the desk with 2-3 mountings.

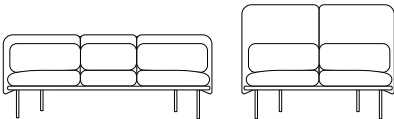

DEZIBEL
Widths: 640 / 840 / 940 / 1200 / 1400 /
1600 / 1800 / 2000 / 2200
Height: 750
Height over desktop: 600
Thickness: 40

Tune

Sofa

Tune is a sound absorbing seating collection designed by Norm architects for Zilenzio. The Sofa has a clad sound absorbing shell that's combined with soft cushions that follows the smooth and clean lines of the sofa.

TUNE
Widths: 1500, 2060
Heights: 865, 1200
Depth: 670
Seating height: 460
Seating depth: 500

Tone cabinets are sound dampening design pieces made to help built a balanced acoustic environment in the workplace or at home, ultimately making it easier to focus and concentrate.

TONE
Widths: 550 / 1100 / 1650
Heights: 700 / 1140 / 1580

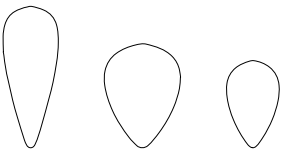

Delta

Wall Absorbent

Expanding on the aesthetics of the Delta ceiling series, Delta Wall balances its soft curves with reliable acoustic dampening. Its segments are available in different sizes and can be colour matched harmoniously to suit all applications and spaces.

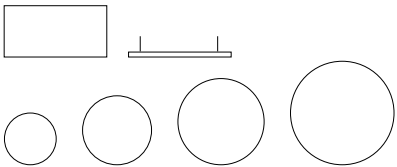

DELTA WALL
540 x 1330
730 x 990
520 x 830

Dezign

Ceiling Absorber

The Dezign ceiling-mounted absorber can swing between vertical and horizontal mounting, and is available in several sizes.

DEZIGN
1200 x 600 / 800 / 1200
Ø 600
Ø 800
Ø 1000
Ø 1200

Acoustics are affected by the amount of sound-dampening material in a room but also by the arrangement of furniture and where people are located. What matters is that the right amount of sound absorbers with suitable properties are installed according to your needs, and that's what we're experts at: creating more or less silence where needed.

This reception desk is a flexible, welcoming entrance solution with an optionally sound-absorbing front panel and laminated worktop. Dezk is available in one standard height yet width and shape can be customised to your specifications.

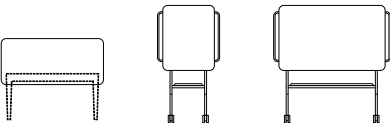

DEZK
Height: 1122 including worktop
Length to order
Thickness: 70
Worktop depth: 320
Thickness: 22

Mezzo

Table Screen
Screen on Wheels

The Mezzo series comprises of two different parts. Mezzo table, an effective table screen and Mezzo on wheels which is a versatile mobile project screen and message board in one; sound absorbing, a magnetic white board on the glass side, and a message board on the fabric-covered part – all combined into one product. Together, these two products provide the base for a productive workplace.

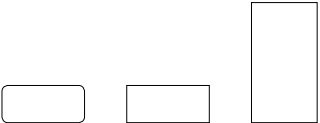

MEZZO
Mezzo table: different widths x 650
Mezzo screen tall: 800 x 1900
Mezzo screen wide: 1600 x 1900

Light

Table Screen
Floor Screen

Light serves primarily as a barrier to place at strategic locations in the room to divide and screen off sound, whether on a table or as a floor screen. The floor sound screen can easily be moved around as needed thanks to its low weight. More dimensions on p. 63.

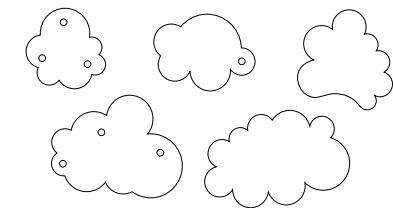

LIGHT
Light table rounded: various widths x 650
Light table: various widths x 650
Light floor: 800 / 1000 / 1200 x 1200 / 1500 / 1800

Cloudz

Ceiling Absorbent

The Cloudz ceiling-mounted absorbers are designed to be suspended in layers one above the other, and have thus been provided with holes through which cables can be drawn in order to attach one layer to another layer below. Five variants are available to create a diverse and light-hearted impression. A ceiling-mounted absorber is often a useful supplement to other types of absorbent measures.

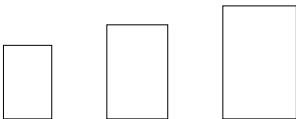

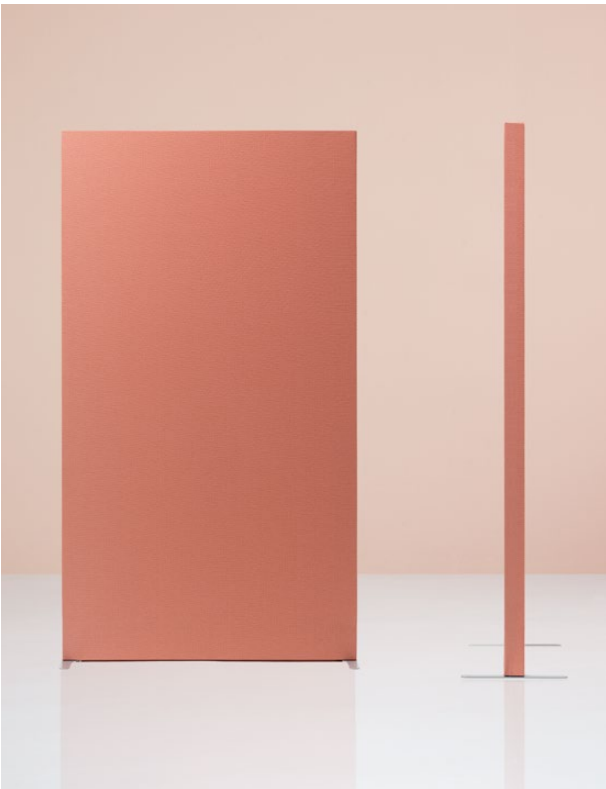

CLOUDZ
Cloud one: 940 x 940
Cloud two: 1170 x 890
Cloud three: 1120 x 1170
Cloud four: 1550 x 1200
Cloud five: 1720 x 1130

Classic

Floor Screen

The Classic floor screen, a very popular member of our family has a minimal design combined with maximum noise reduction. Classic can be used by itself or be connected with other pieces to shield off differently sized environments. See full specifications for Classic on p. 60.

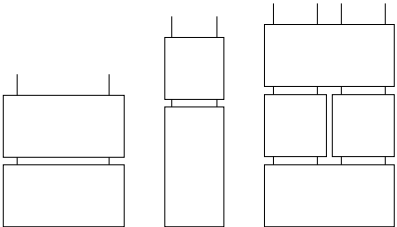

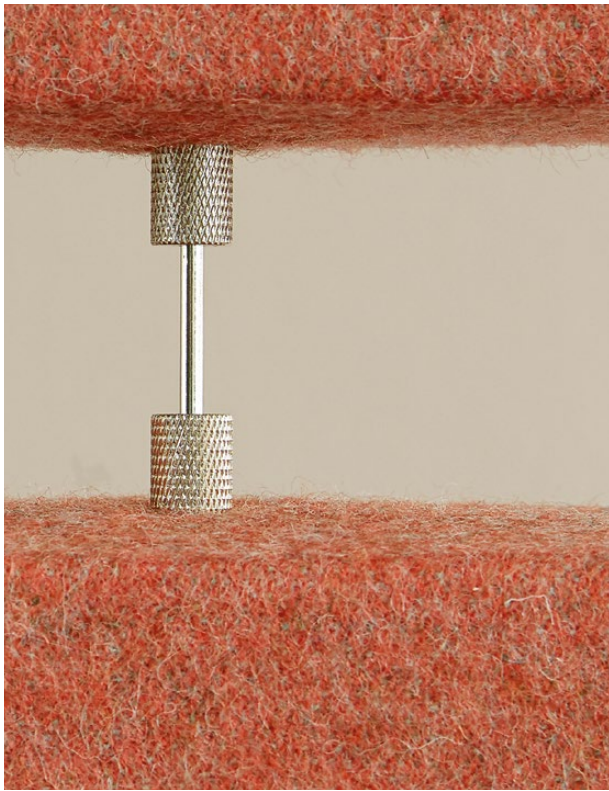

CLASSIC
Various widths x 1200 / 1500 / 1650 / 1900
Thickness: 68

Mute

Ceiling Absorber

Mute is a sound-absorbing module available in optional sizes that can be combined in many different ways. The absorbers are either suspended at 50 or 100 mm intervals, and each Mute installation is adapted to the customer's specific space.

MUTE
1200 x 1200
600 x 1825
1200 x 1825
Thickness: 65

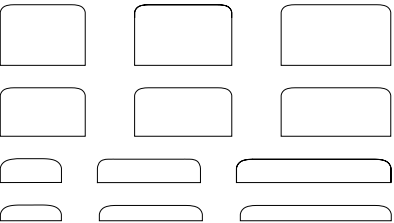

For us, sound absorption comes before everything else. The mineral wool core is often clad in fabric and the thickness of our screens have been carefully developed to absorb all frequencies of sound effectively in a space. When a screen is dressed in wood, we perforate the surface to allow sound to travel into the core.

Focus

Table Screen Floor Screen

Focus is a textile space divider, flexible to shape after your needs. Focus table screen creates a personal zone in public spaces. It can easily be folded and stored close by after use, perfect for activity-based offices. The light and foldable construction of the Focus floor screen makes it easy to move around and to adapt to the needs of the flexible office.

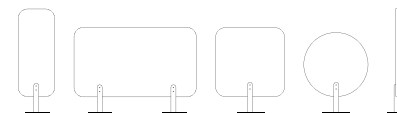

FOCUS
 Floor screen:
 2100 / 2400 / 2700 x 1500
 2100 / 2400 / 2700 x 1200
 Table screen:
 1185 / 1980 / 2970 x 450
 1185 / 1980 / 2970 x 320

Dezibel 2.0

Floor Screen

The Dezibel floor screen has can be used not only as decoration in the interior design of public environments, but also as a screen in office surroundings.

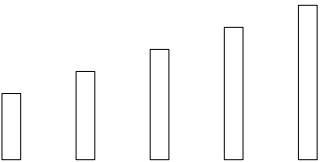

DEZIBEL 2.0
 Round: Ø 1020 H: 1320
 Square: 1200 x 1500
 Wide: 1600 / 1800 / 2000 x 1500
 Tall: 600 x 1850
 Thickness: 70

Timber

Wall Absorbent

Timber is a minimalist sound-absorbing module that can be combined in many different ways. They work well as classic wall panels, but also as herringbone, graphic wall pieces, or spaced to create a more airy look. See other combinations for Timber on p. 64.

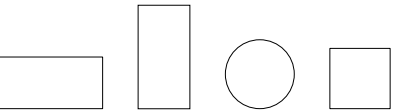

50

TIMBER
Width: 150
Heights: 600 / 800 / 1000 / 1200 / 1400

Dezign wall panels are available in several sizes and shapes, and can be combined endlessly to create the visual and acoustic effect you need. The panels also work well as message boards. They are an efficient way to reduce echoes and reverberation in public spaces. Moreover, they are a good complement to other sound absorption screens and solutions. More Dezign dimensions and shapes on p. 64.

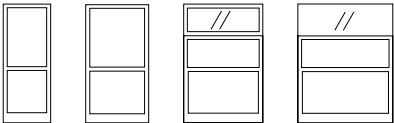

DEZIGN
Rectangle: several sizes
Circle: Ø 600 / 800 / 1000 / 1200
Square: 600 / 700 / 800 / 1000 / 1200

Offizz

Floor Screen

Floor screen Offizz is designed to dampen the noise level and screen of the office landscape. Offizz is available in several formats and looks to fit many different types of environments. See full specifications for Offizz on p. 60.

OFFIZZ
Widths: 600 / 800 / 1000 / 1200
Heights: 1100 / 1500 / 1900

The Fazett wall system consists of a single building block, diamond shaped, that can be combined in many ways. By dressing them in different colours you can create many different patterns to cover all kinds and sizes of surfaces. They create a decorative wall pattern that absorb sound at the same time. See more Fazett combinations on p. 64.

FAZETT
350 x 400
700 x 200
700 x 400
700 x 800
1400 x 1400
1400 x 1600
1400 x 1600

Arc is a sound absorbing roof to create a feeling of enclosure. Walls and roof together create a defined space within a bigger space. It can be placed free-standing or against a wall, to easily shield off and create a quiet atmosphere. See more dimensions for Arc on p. 61.

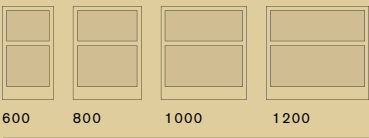

ARC
Widths: 600 / 800 / 1000 / 1200
Lengths: 1200 / 2000 / 2500 / 3000
Height: 2235
Thickness: 70

DELIVERY TIME
Approximately 4-5 business weeks after the order has been made. Confirmed delivery time refers to delivery from factory.

DELIVERY TERMS AND CONDITIONS
Shipping costs are added.

PRICES
All prices are quoted in EURO exclusive of VAT.

TERMS OF PAYMENT
30 days net. After the due date, interest expenses and late payment fees will be charged.

GUARANTEE
A 2 year guarantee applies for manufacturing defects and materials.

RETURN POLICY
When a product is returned, the customer is always responsible for shipping costs.

CLAIMS
Shall be submitted to Zilenzio no later than 7 days after receipt of the goods. Returns submitted without agreement from Zilenzio are not accepted. Dimensions that differ from standard or covered screens may not be returned.

TRANSPORT DAMAGE
Notify the transporting driver upon receipt of goods.

RESERVATION
Texts and images may contain mistakes, we reserve the right to make changes as necessary.

DISCLAIMERS
This catalogue only contains standard modules. For other finishes please request more information.

Fabrics

Our carefully selected fabrics are divided into four groups in which prices rise from group one up to group four.

The following fabric colours are only a selection. Each group includes all colours. For more see www.zilenzio.com

Colour deviation may occur during printing. For exact fabric colours please order each fabric chart directly from us.

Our designers

Note is a Stockholm-based design studio founded in 2008 working within the fields of architecture, interiors, products, graphic design and design strategy. They like to pay attention to their surroundings, and aim to create objects that make others do the same. By looking at what is unique in every project and emphasizing that, they transform non-material values into tactile objects and spaces.

Norm Architects was founded in the heart of Copenhagen in 2008. The name Norm indicates the importance of drawing

inspiration from traditions and norms that have been refined for many centuries within the field of architecture and aesthetics. Like true Scandinavians they pride themselves in their culture and history, and aspire to create new norms for Nordic design.

Constance Guisset is a French designer. She intends to create ergonomic, light, lively and welcoming objects, springing from a desire for movement, delicacy and surprise. She founded her studio specialized in product design, interior design, and scenography in 2009. Constance Guisset works with many French and international furniture editors such as Petite Friture, Moustache, Tectona, LaCie, Molteni & C, La Cividina, and ZaoZuo.
